

Annex 8. Individual Contracting Party figures for indicators in discharges from the oil and gas sub-sector

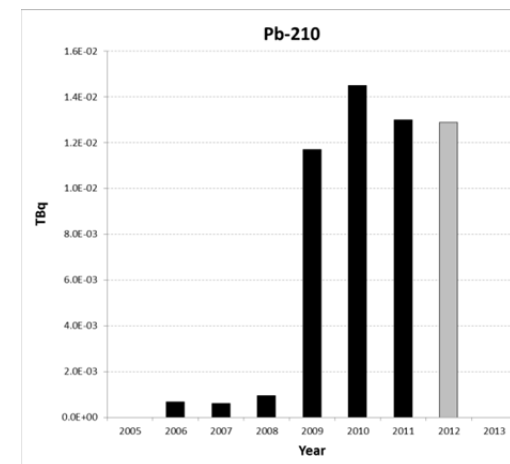

Denmark

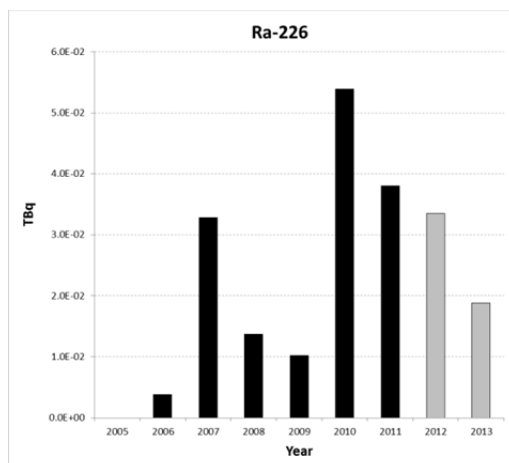

Total alpha discharges for produced water from the oil and gas sub-sector for Denmark for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns).

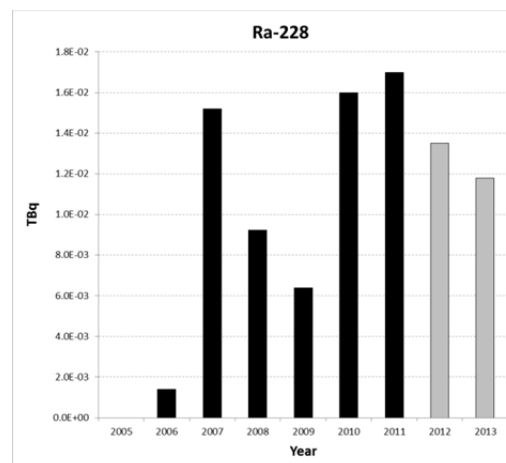

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for Denmark for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for Denmark for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

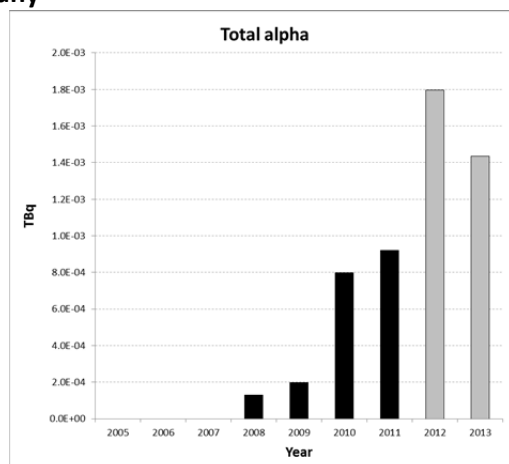

Ra-226 discharges for produced water from the oil and gas sub-sector for Denmark for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

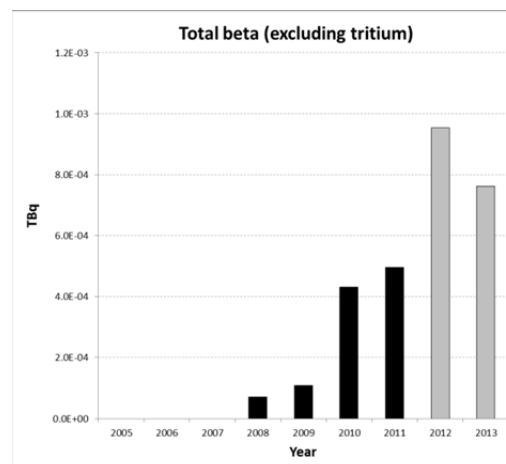

Ra-228 discharges for produced water from the oil and gas sub-sector for Denmark for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

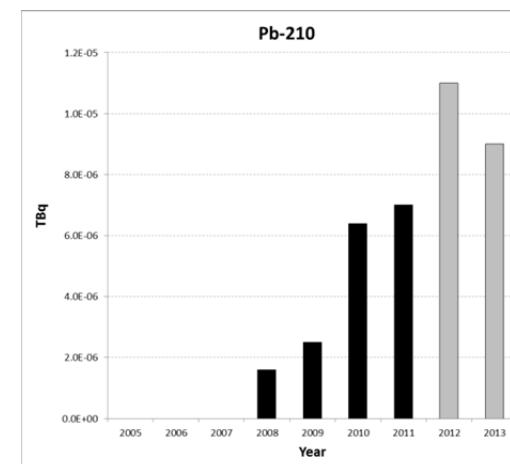

Germany

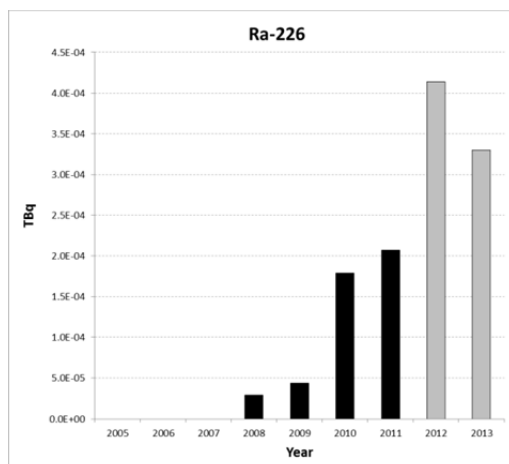

Total alpha discharges for produced water from the oil and gas sub-sector for Germany for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

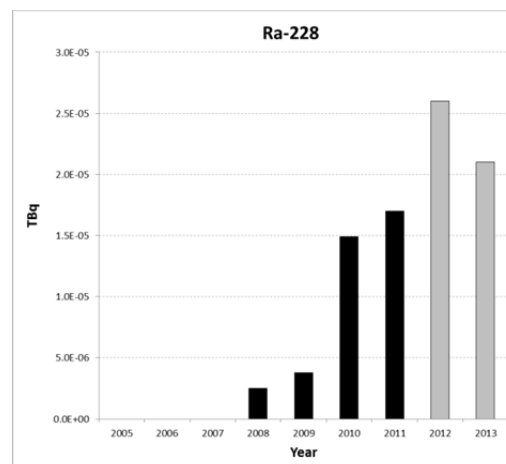

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for Germany for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for Germany for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

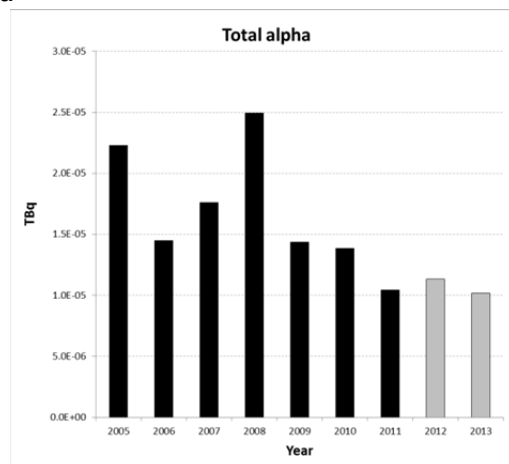

Total Ra-226 discharges for produced water from the oil and gas sub-sector for Germany for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

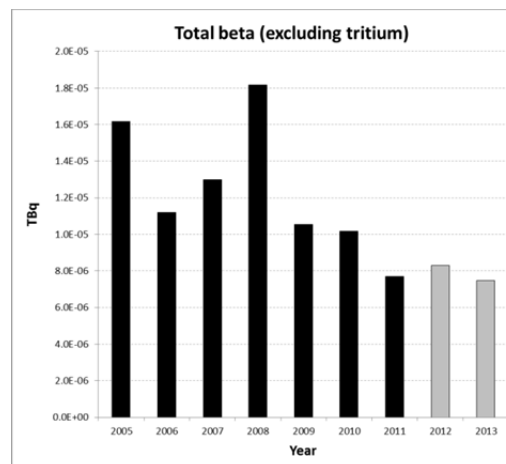

Total Ra-228 discharges for produced water from the oil and gas sub-sector for Germany for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

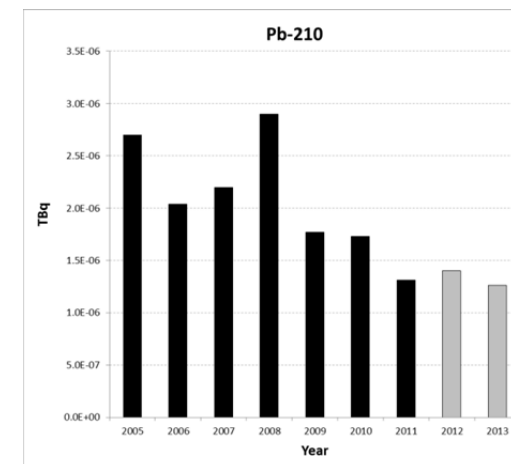

Ireland

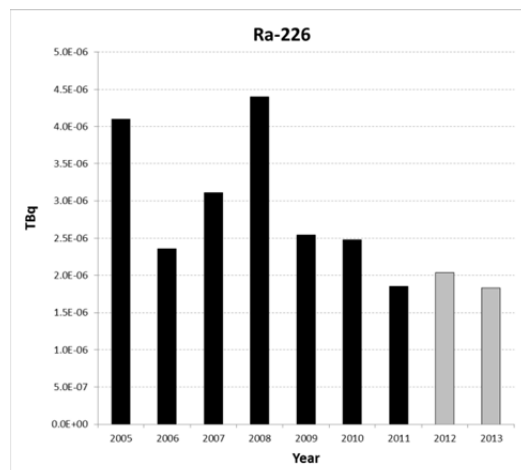

Total alpha discharges for produced water from the oil and gas sub-sector for Ireland for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

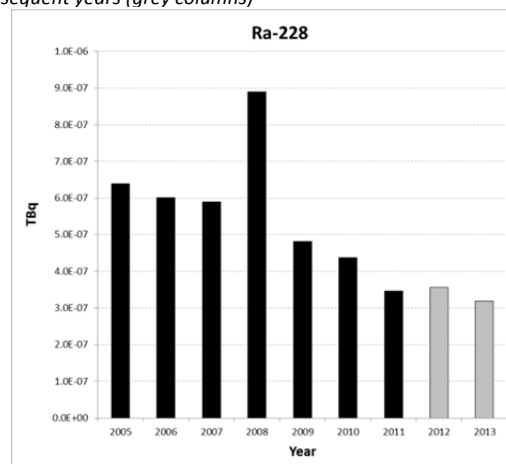

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for Ireland for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for Ireland for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

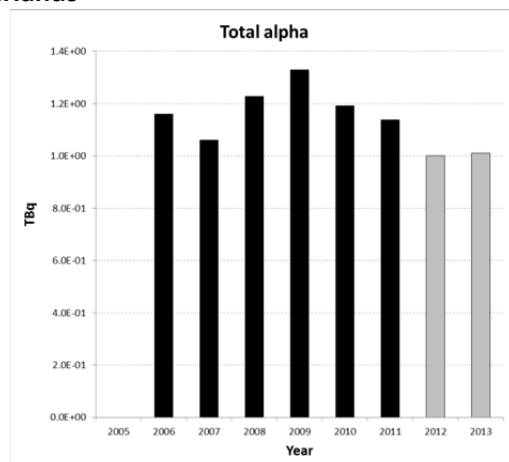

Total Ra-226 discharges for produced water from the oil and gas sub-sector for Ireland for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

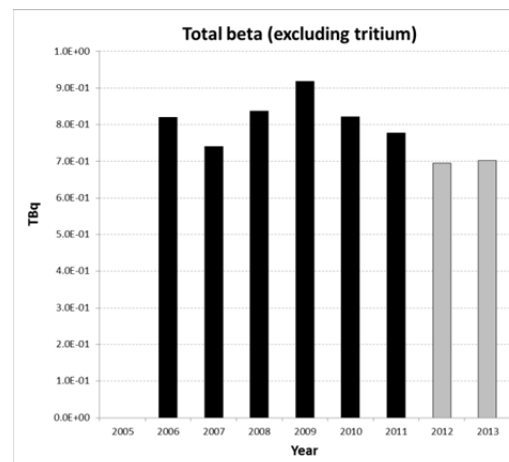

Total RA-228 discharges for produced water from the oil and gas sub-sector for Ireland for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

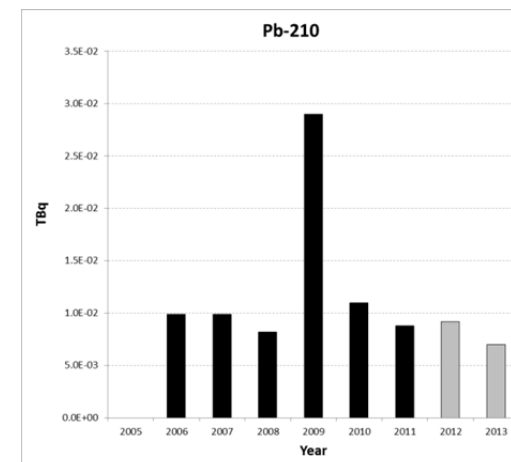

Netherlands

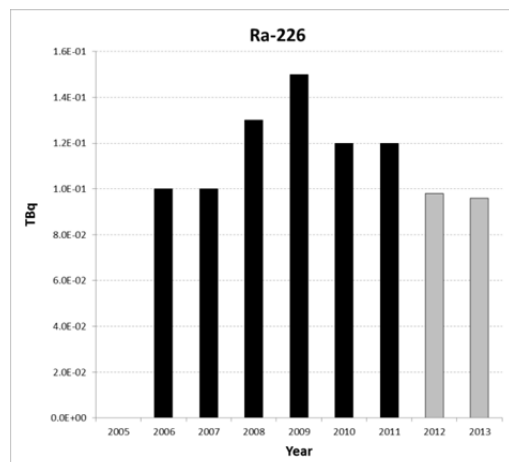

Total alpha discharges for produced water from the oil and gas sub-sector for the Netherlands for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

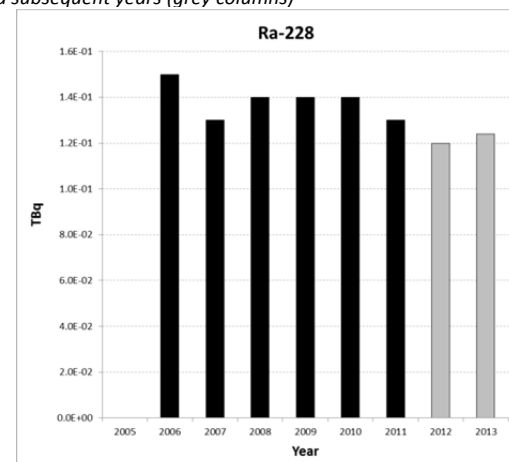

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for the Netherlands for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for the Netherlands for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

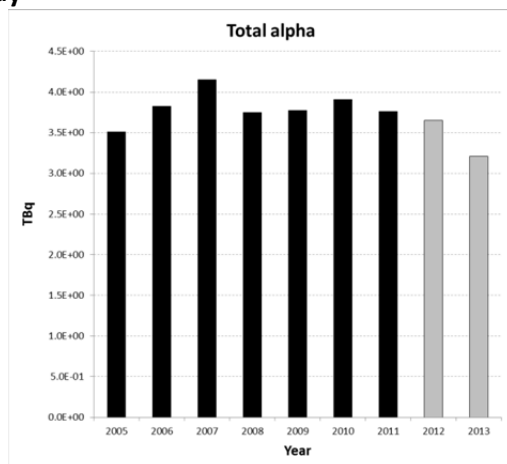

Total Ra-226 discharges for produced water from the oil and gas sub-sector for the Netherlands for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

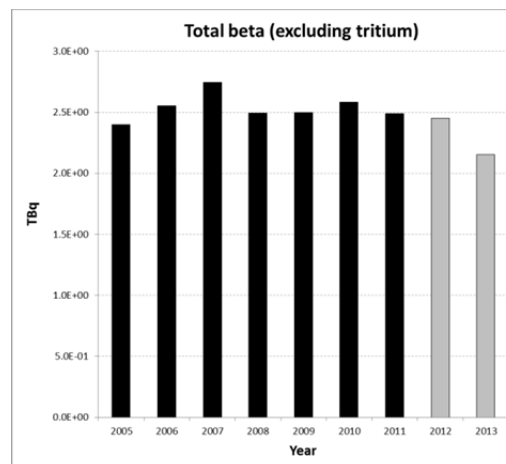

Total Ra-228 discharges for produced water from the oil and gas sub-sector for the Netherlands for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

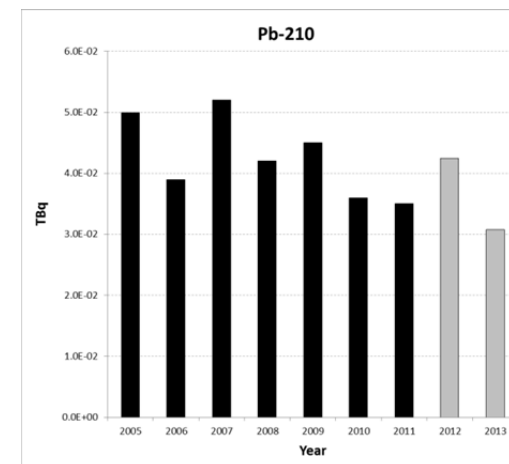

Norway

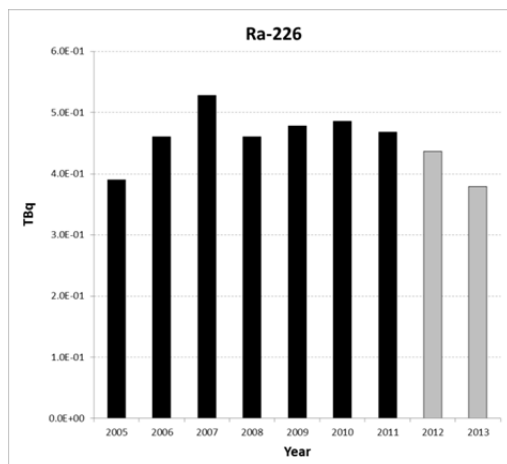

Total alpha discharges for produced water from the oil and gas sub-sector for Norway for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

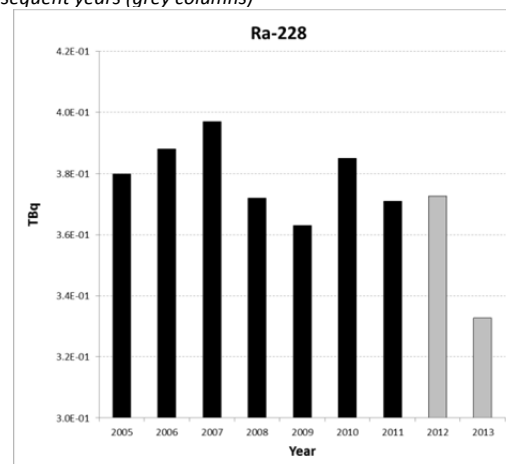

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for Norway for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for Norway for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

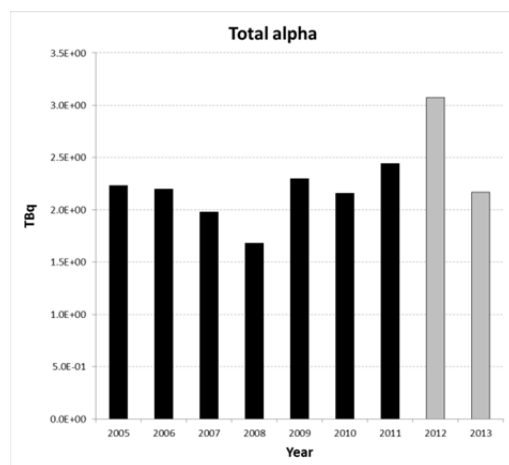

Total Ra-226 discharges for produced water from the oil and gas sub-sector for Norway for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

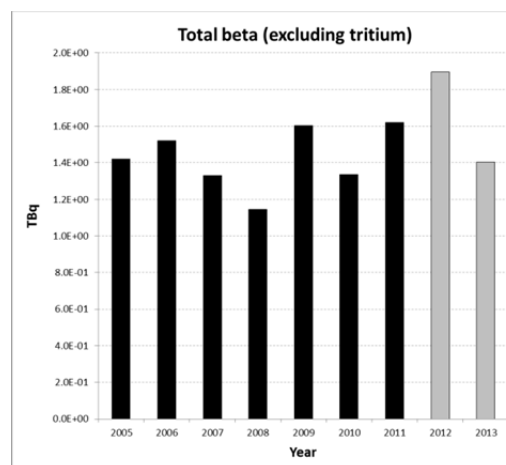

Total Ra-228 discharges for produced water from the oil and gas sub-sector for Norway for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

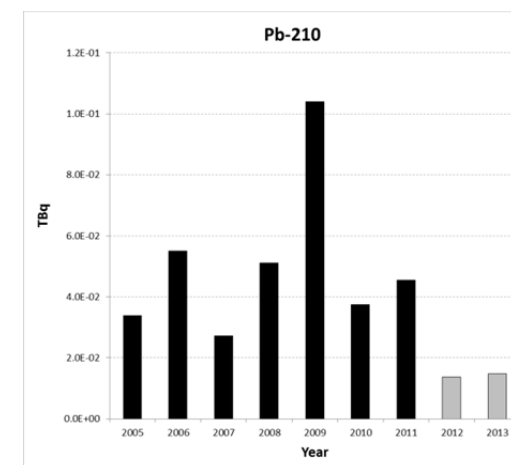

United Kingdom

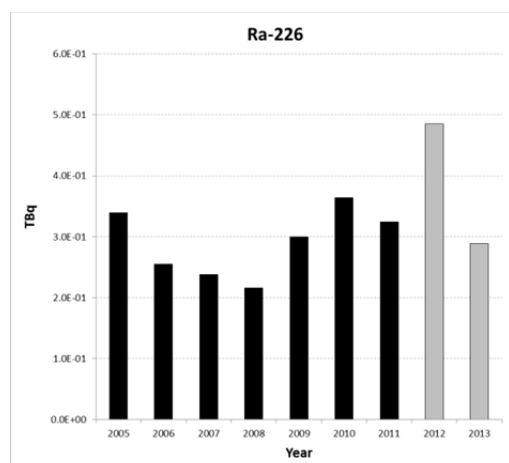

Total alpha discharges for produced water from the oil and gas sub-sector for the United Kingdom for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

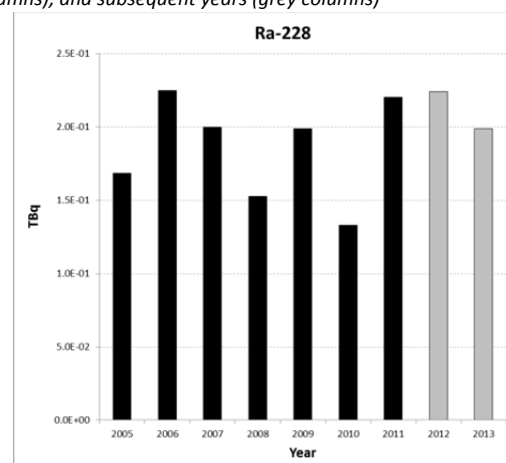

Total beta (excluding tritium) discharges for produced water from the oil and gas sub-sector for the United Kingdom for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Pb-210 discharges for produced water from the oil and gas sub-sector for the United Kingdom for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total Ra-226 discharges for produced water from the oil and gas sub-sector for the United Kingdom for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)

Total alpha discharges for produced water from the oil and gas sub-sector for the United Kingdom for the period 2005 to 2013. Time periods indicated are baseline period (black columns), and subsequent years (grey columns)
