

List of Decisions, Recommendations and Other Agreements Applicable within the Framework of the OSPAR Convention - Update 2023 ¹

Work to implement the OSPAR Convention and its strategies is taken forward through the adoption of Decisions, which are legally binding on the Contracting Parties, Recommendations and Other Agreements. Decisions and Recommendations set out actions to be taken by the Contracting Parties. These measures are complemented by Other Agreements setting out:

- issues of importance;
- agreed programmes of monitoring, information collection or other work which the Contracting Parties commit to carry out;
- guidelines or guidance setting out the way that any programme or measure should be implemented;
- actions to be taken by the OSPAR Commission on behalf of the Contracting Parties.

OSPAR 2010 reviewed the applicability of Decisions, Recommendations and Other Agreements within the framework of the OSPAR Convention and agreed that a number of measures could be considered as fulfilled or overtaken by measures adopted at national level or within other forums and therefore not followed by OSPAR anymore. As a consequence, while being set aside, they are retained as part of OSPAR's 'acquis'. The list of these measures together with an explanation of why they have been set aside is at [Annex 5 to OSPAR 10/23/1](#). Further reviews are undertaken regularly and as a result:

- OSPAR 2018 agreed to set aside Agreement 2006-04 on the application of the EcoQO system and Agreement 2011-01 on a Voluntary Marine Beach Litter Monitoring Programme.
- OSPAR 2019 agreed to set aside OSPAR Recommendations 2000/1 and 2000/2.
- OSPAR 2020 agreed to set aside PARCOM Decision 90/3 and PARCOM Decision 95/1.

Measures that have been set aside are indicated by blue shaded text in the attached list.

¹ **Secretariat note:**

Ministers adopted at OSPAR/MMC 1998 an OSPAR Decision 98/1 Concerning the Status of Decisions and Recommendations and Other Agreements Adopted under the Former Oslo Convention and Paris Convention within the Framework of the OSPAR Convention, which entered into force and became binding on 9 February 1999. Upon entry into force, OSPAR Decision 98/1 revoked certain Decisions, Recommendations and Other Agreements, which were adopted under the former Oslo Convention and under the former Paris Convention and which are listed in OSPAR Decision 98/1.

PART A - Decisions and Recommendations adopted under the former Oslo Convention, under the former Paris Convention and under the OSPAR Convention²

Decision / Recommendation	Notes	Reservations/ Non-Acceptance ³
1. OSCOM Recommendation on the Disposal of Pipes, Metal Shavings and Other Material Resulting from Offshore Hydrocarbon Exploration and Exploitation Operations, 1977		
2. PARCOM Recommendation that No New Waste Brine Plants be Built, 1978		
3. PARCOM Decision on Limit Values for Mercury Emissions in Water from Existing and New Brine Recirculation Chloralkali Plants (exit of the purification plant), 1980		
4. OSCOM Recommendation to Take all Possible Steps to Reduce at Source the Contamination of Sewage Sludge with Heavy Metals, 1980		
5. PARCOM Decision on Environmental Quality Standard for Mercury in Organisms, 1980		
6. PARCOM Decision on Limit Values for Existing Waste Brine Chlor-Alkali Plants, 1981		
7. PARCOM Decision on Limit Values for Existing Brine Recirculation Chlor-Alkali Plants (exit of the factory site), 1981		
8. PARCOM Recommendation on Other Land-Based Sources of Mercury Pollution (Thermometers, Batteries, Dental Filters), 1981		
9. PARCOM Recommendation on the Production, Collection, Regeneration and Disposal of Waste Oils, 1981		
10. PARCOM Decision on New Chlor-Alkali Plants Using Mercury Cells, 1982		
11. PARCOM Recommendation on Other Land-Based Sources of Mercury Pollution, 1982		
12. PARCOM Recommendation on Reduction Programmes for Discharges from Existing Refineries, 1983		
13. PARCOM Recommendation for Reducing Cadmium Pollution, 1984		
14. PARCOM Recommendation on Pollution by Titanium Dioxide Wastes, 1984		

² Measures no. 1-68 were adopted prior to 1998 under the former Oslo Convention or under the former Paris Convention. Measures from number 69 onwards have been adopted under the OSPAR Convention from 1998 onwards.

³ The entry into force of the 1992 OSPAR Convention on 25 March 1998 required Contracting Parties which were not Contracting Parties to the former Oslo Convention (European Community, Luxembourg, Switzerland) and the former Paris Convention (Finland, Luxembourg, Switzerland) to indicate their position with respect to the Decisions, Recommendations and other agreements adopted under those Conventions, which continue to be applicable within the framework of the OSPAR Convention.

Finland, Luxembourg and Switzerland stated that their national legislation now contains more stringent provisions than those in some of the measures previously adopted under the former Paris Convention. For this reason, Finland considered it inappropriate now to accept measures which are, or have become, outdated by reference to its current legislation. Furthermore, Luxembourg is still in the process of examining whether or not it can accept certain Decisions and Recommendations adopted under the former Paris Convention. Until this examination is completed, Luxembourg has indicated, on a provisional basis, its non-acceptance of certain PARCOM Decisions and Recommendations.

Finland, Luxembourg and Switzerland also stated that these Contracting Parties could accept OSCOM, PARCOM and OSPAR measures related to sea-based activities. However, because Finland, Luxembourg and Switzerland do not border the maritime area, any OSCOM, PARCOM and OSPAR measures related to sea-based activities are not applicable for Finland, Luxembourg and Switzerland.

Decision / Recommendation	Notes	Reservations/ Non-Acceptance ³
15. PARCOM Decision 85/1: Programmes and Measures of 31 December 1985 on Limit Values and Quality Objectives for Mercury Discharges by Sectors other than the Chlor-alkali Industry
